April 16, 2004

This month is the one year anniversary of the establishment of the Lectrotab product in the Belgium distribution warehouse. This facility is being operated by Flanders Marine and Greenwich Trading Company in order to provide better access to all of the products they represent including Lectrotab. We find the administrative, shipping and delivery functions to be operating smoothly and we are grateful to be a participant. The Lectrotab inventory at present is modest but we are ready to meet whatever inventory level is needed. If you have used this facility, your comments would be of interest.

We have a new Lectrotab brochure in process and expect it will be available by June. This will be a 4 page piece in full color and will replace everything we now have. To supplement this brochure, we will also publish an 8 ½ x 11, two color, detailed product specification sheet for each item we offer. More details later but in the meantime, we need to know how many brochures as well as individual product specification sheets, you would like to have. We plan to print this new literature in substantial quantity and are anxious to supply whatever quantities you can use effectively to promote sales.

More next week but let us hear from you in the meantime. Use mailcall@lectrotab.com for your reply. Our responses will be very quick!

Regards,

L. Jeremy Crews
President
