We had a four day work week which has proved to be very busy! We are maintaining our production goals while continuing to increase our efficiency. Our dedicated team works together to ensure all orders are processed in a timely manner.

Today we received a stocking order from Marine Direct, our long time distributor in New Zealand. We sincerely appreciate the solid support of the Lectrotab product "Down Under". Many thanks to Darryll Hart for his questions and comments throughout the years.

The Oval control switch is still on schedule for later this month. We are very excited and we will continue to send updates to everyone. The new style flat rocker switch assembly is on schedule for this fall. Remember, nothing changes regarding performance, price or model number (SAF-S). The appearance is the ONLY difference.

More next week but let us hear from you in the meantime. Use [mailcall@lectrotab.com](mailto:mailcall@lectrotab.com) for your reply. Our responses will continue to be very quick!

Best Regards,

John R. Sniffin  
General Manager
